THE
BEST COOKING STOVE,
IN THE MARKET.
"PEERLESS," FOR COAL OR WOOD.

THE "PEERLESS" has all the advantages of all the popular stoves in use, together with such NEW FEATURES as justify the manufacturers in calling it the BEST COOKING STOVE in the market.
It is the "PEERLESS," because it is superior to all other Cooking Stoves in *Economy, Simplicity, Cleanliness, Baking, Roasting and Beauty.*
1st, ECONOMY. A patented method of heating the air and conveying it through the oven, saves from *twenty to thirty per cent. of fuel.*
2d, SIMPLICITY. It is easily managed. The fire can be perfectly controlled, and kept through an entire season without rekindling.
3d, CLEANLINESS. No dust escapes while shaking or dumping the grate.
4th, BAKING. Its large oven, wherein all parts are of *equal* temperature, bakes as *evenly as a brick oven,* and that without turning the article. It bakes quickly. It will bake upon the oven rack quickly, evenly and well at the same time the oven bottom is fully employed in baking or roasting.
5th, ROASTING. A current of hot air constantly passing through the oven, so thoroughly ventilates it, that it *roasts as well as a tin kitchen.*
6th, BEAUTY. Made of the best iron, it will not crack. Well moulded, artistically designed and smoothly cast, it is the *most beautiful* as well as the *most serviceable* stove in the market.
Each stove is WARRANTED to be and to do all that is claimed for it
PRATT & WENTWORTH,
Manufacturers, Boston.
ALBERT NOYES & CO.,

Which will be sold at the lowest prices.
Every Watch will be warranted to give perfect satisfaction. Clocks and Fine Gold Jewelry.
☞ Thanking the public for their liberal patronage during the past five years, I would say that all Watches left in my care, will be carefully repaired and warranted. W. F. WEEKS,
In Chas. Hight's Book Store.
aug 27—tf *NO. 3 SMITH'S BLOCK.*

Ritchie's Liquid Compass!

THE Ritchie Compass which has been the standard Compass in the navy for upwards of four years, and also in extensive use in the merchant service, should be used on every class of vessels where a compass is to be depended on. It combines all the qualities of a perfect instrument. To extreme sensitiveness and perfect steadiness is added a strength and durability which prevents them from getting out of order like other compasses. The reason for this is apparent to any one upon examination. A single trial of this compass has always resulted in its adoption and the rejection of every other kind.
EVERY COMPASS WARRANTED.
For sale wholesale and retail by

TELEGRAPHIC.

Despatches to the Evening Times.

Fenian Assemblage in New York—The Death of the Canadian Fenians to be Avenged.

NEW YORK, Oct. 29.

Five thousand people assembled at Jones woods yesterday, to hear Mr. Stephens' last speech in America. He said he would return to Ireland, where he would strike a blow for Ireland before the dawning of the new year. An army of 50,000 was organized there, who regret the political dictation of the Catholic clergy. He urged the same disposition upon his audience, but counseled them to respect in all that pertains to their special calling as spiritual advisers.

A man in the crowd, supposed to be a British spy, was beaten almost to death, but after the row was over, he proved innocent of such charge.

At the meeting of the Fenian circles last night, it was resolved to avenge the death of the convicted Fenians in Canada, and dared the Canadians to execute them.

WASHINGTON, Oct. 29.

The grant for colonization of vacant lands in Lower California to an American company, has recently been confirmed by Juarez's government, and the parties recently received their formal order of possession through the Mexican Minister at Washington.

The grant was made anterior to the arrival of Maximilian in Mexico. Consequently the title is held to be without objection.

PORTLAND, Oct. 29.

A letter from Lloyd's agent at Guysboro states that the schr J H M Brewer of Eastport, Thompson master, from Port Hood, with a cargo of pickled fish, was abandoned Oct. 4th, off Holland's Harbor, waterlogged, and afterwards picked up and towed into Isaac's Harbor, where were discovered two auger holes, ½ inches in the bottom, near the bows of the vessel. She is libelled by the Admiralty, and notice is issued for claimants.

CINCINNATI, Oct. 29.

A boy 14 years old was shot dead by a companion yesterday for knocking his hat off.

WASHINGTON, Oct. 29.

In response to the request of the N. Y. city politicians to interfere for the Fenians in Canada, the President referred them to the correspondence with our Consul at Toronto, and expressed sympathy with them.

Miss Fanny Seward, the only daughter and youngest child of the Secretary of State, died early this morning from bilious fever.

FARTHER POINT, Oct. 29.

Steamship Moravian, from Liverpool 18th, arrived off this point this forenoon.

Mr. Bright was entertained at breakfast in Glasgow by the promoters of the Reform demonstration. In his speech on the occasion, Mr. Bright briefly referred to his approaching visit to Ireland, and said the more fully the people were admitted to a fair share of parliamentary power the more completely would justice be done to Ireland.

Salterthwait's weekly report announces that American securities have been characterized by important fluctuations. U. S. 6-20s varying in price from 70 to 72¾, and closing finally from 68 to 68¾.

It is stated that Count Berg has been relieved from the functions of Governor of Poland, and been succeeded by Gen. Count Uriden.

Mustapha Apacha was organizing an expedition against the insurgents on a large scale. Ten thousand casks of powder had arrived from Syria.

The Moniteur du Soir states that the position of affairs is favorable to the speedy pacification of Candia. It also confirms the statement that the difficulties with Montenegro had been satisfactorily arranged, and says the French Government congratulates itself upon the result which is equally favorable to Turkey and her populations.

Advices from Athens state the Greeks pursued the Turkish troops; that the Turks had evacuated Candianose, killing 120, and wounding 800 more.

A most painful affair occurred in Chicago on Sunday, at No. 377 Sedgwick street, where a number of young men reside. One of these was Reuben T. Bryant, from Council Bluffs, Iowa. He had been for some days confined to the house by sickness, and on Sunday afternoon, having looked into a room adjoining the one he occupied himself he found there a bottle marked "Blackberry Cordial." Taking up the bottle he applied it to his lips, and swallowed a mouthful of it. Immediately on taking a second mouthful, he discovered that, whatever the mixture was, it was not what it purported to be. With a vague sensation of terror, he hurried to the door and spat out what he had in his mouth. In a few minutes afterwards he became sick, and began to vomit, violently. His alarmed fellow students gathered around him, and several of them detected evident symptoms of poisoning. They pressed him to tell what he had taken, but it was not till fully ten minutes had elapsed that he would acknowledge having swallowed the dreadful dose. When he told them of the bottle the young men looked at each other horrified. Though labelled "blackberry cordial," it really contained nitric acid, which some of the young man's fellow-boarders had been using for the purpose of forming a battery for a small telegraph instrument with which they had been in the habit of experimenting. A physician was immediately sent for, and before he arrived the violent vomiting had ceased. Milk and sweet oil were given him with the hope of neutralizing the effects of the terrible poison, which had even then begun to eat its way through his bowels. When the vomiting recommenced it was but too evident that all effort to arrest its progress would be in vain. He threw up large quantities of blood, showing that the dreadful draught he had taken was already making rapid progress. He was still alive on Monday afternoon, but not a particle of hope for his recovery was entertained. He must either die of ulceration of the bowels, or the more lingeringly and painfully of starvation.

THE HURRICANE IN THE WEST. The western country has recently been swept by devastating storms. Short accounts of the ruin created by these storms have been published in the telegraphic columns, and now there come by mail details of the destruction and ruin that has marked the path of the tornado.

In Chicago, at 11 o'clock at night, Monday, the 22d, the wind roared through the streets with the fury of a hurricane, causing the most courageous to quake and tremble. A little before midnight, the whole region in the neighborhood of Madison and State streets was shaken as by an earthquake, and the crash of falling timbers told too plainly that a frightful catastrophy had taken place. A crowd was soon gathered on the spot, in spite of the violence of the storm, which made it almost impossible to keep on foot.—It was soon apparent that a large four-story brick building, No. 132 State street, had been prostrated by the wind, and its fall had crushed four smaller wooden tenement houses. The brick house was not complete and had no occupants, but the wooden houses were full of sleeping men, women and children, all of whom were crushed or entangled in the ruins. The groans and cries of these wretched sufferers were heart-rending in the extreme, but with all the efforts made to rescue them it was three o'clock before they could be extricated from the wreck. Many were crushed in the most horrible manner, pieces of plaster and hair being driven deep into the flesh. To the surprise of all quite a number of persons escaped from the ruins with their lives, but five persons being killed outright, and six seriously injured. The walls of the brick building had been carried up to their full height, but no portion of the roof had been completed, and the sides were held together by joists at the several floors. The total pecuniary loss is about $30,000.

In St. Louis the storm came like a thunder clap, and was over in ten minutes, taking a course from South to North, and keeping a rather narrow track, in which the wind seemed to whirl with irresistable velocity, tearing up trees and unroofing houses with as much ease as if they had been things of straw. Several houses in Carondelet avenue had roofs taken off and walls knocked down, many churches were deprived of steeples as by magic, and down some of the streets there went an indescribable avalanche of trees, boards, bricks, shutters, plaster, barrels and anything that came in the way of the destroyer. In several instances stores were gutted in an instant, and their contents scattered to the four winds like snow-flakes. Hundreds of chimneys and walls were prostrated, and many scores of roofs blown away. The Catholic Church of the Holy Angels was made a wreck in about two minutes. The Polytechnic Institute, being tall and prominent, suffered severely, the tin roofing flying like sheets of paper to incredible distances, shaving off chimnies and cornices in their passage. All this occurred in the space of ten minutes, and began at half-past four, the air being dark and rain pouring down in torrents all the time. Strange to say, no one is reported killed, and only three or four seriously wounded.

LETTER FROM HON. HANNIBAL HAMLIN.

The following letter has been received by the gentlemen at the Custom House who recently presented a service of silver to Hon. Hannibal Hamlin, the late Collector at Boston:

BANGOR, Oct. 23, 1866.

Gentlemen—I have the pleasure of acknowledging the receipt of your favor of the present month, accompanied by a "tea service and salver," which you do me the honor to present to me as a token of your respect and esteem.

Allow me to tender to you my sincere and grateful thanks for your generous present. I shall esteem it highly for its intrinsic value; but as a memento of your kind regard and good will, thus manifested, it will be truly invaluable. I shall cherish with grateful recollections, the uniform courteous and gentlemanly deportment of all the employees of the Custom House toward me while I had charge of the same; and I desire to bear testimony to the promptness and fidelity with which all the employees discharged their several duties to the Government and the public.

You may rest assured that I shall always feel an earnest interest in your future welfare, and shall be gratified at your continued prosperity in life.

Reciprocating in the fullest manner the friendly feeling you so generously express I am yours truly,

[Signed] H. HAMLIN.

John M. Fiske, Esq., Deputy Collector, and other employees, Custom House, Boston, Mass.

New Publications.

From *J. W. Bartlett,* we receive a couple of new and attractive books for the young, being part of the popular Woodville Stories of the Oliver Optic Series. "Haste and Waste, or the Young Pilot of Lake Champlain," is an exciting story of adventure such as all true boys love to read—in a handsome volume of 312 pages of clear and beautiful type. "Hope and Have, or Fanny Grant among the Indians," is a story having a good moral to it—the latter part of it being founded upon the terrible Indian massacre which occurred in the western part of Minnesota in 1863. The book is one of 286 pages with an illustrated title.—Both works are published in the well known good style of Messrs. Lee & Shepard, Boston.

From *E. F. Duren* we have a copy of "The Sequel to the Old Manor House," from the Sunday Magazine, London, a volume of about 400 pages handsomely published by Henry Hoyt, Boston. It is an interesting historical story based upon the protestant persecutions endured during the reign of the "Bloody Queen Mary" of England.

There seems to be a plethora in the lumber business of that great mart, Chicago, this fall. The Journal of that city had the following paragraph a week or two since:

Chicago River is crowded with vessels to day as it never has been at one time before—mostly lumber vessels, scores of which have arrived with heavy cargoes since yesterday morning. The river is so jammed up in some parts that it is impossible for tugs or grain vessels above to get through into the lake. There are now over 25,000,000 feet of lumber afloat in our river, of which 12,865,000 feet arrived since yesterday morning. Lumber vessels are still coming hourly.

TUESDAY, OCTOBER 30, 1866.

"No Principles."

A blatant copperhead paper says:

The Republican party has been justly denounced as "a party without principles or policy." This truth, already clearly apparent to every mind in the land, was never more palpable than to-day, when that party seeks, and endeavors to find justification for the crime, for less than crime it is not, to continue its hold upon political power, thro' the disfranchisement of ten States of the Union. Aye, ten Sovereign States, that have never been out of the Union, to save which we fought the most desperate civil war that ever crimsoned our earth.

The war which "we" fought, indeed! The part taken by the copperhead presses in that war is sufficiently well known. They "fought," to be sure—but it was on the side of the rebellion, to the best of their ability. With *their* good will not one of those "ten States" so mournfully spoken of, would have been kept in or brought back to the Union. Editors like the one who retails such flippant abuse as the above against the highest moral and national party that ever existed in this or any other country, were found fighting zealously *on the side of the enemy* during the whole of that war—aye, and are striving to restore the political power of the nation to that enemy *since* that war. It is their whole end and aim *now*, as it was during the war, to bring every element of goodness and true greatness and progress in this republic into subjection to a base oligarchy which would trample beneath its feet—in the future as in the past—every principle of moral, mental, and physical freedom, and every instinct and aspiration of genuine Republicanism. But this is not to be. In the Providence of God the people of the United States of this day and generation, under the organization and lead of the Republican party, are to overthrow and crush out every remaining vestige of slavery in this country, and we trust to establish broad and deep the foundations of that Equal and Exact Justice to all men, upon which alone can be reared an *enduring* superstructure of government.

"No principles"! Why, the Republican party of to-day is the only political party which has had real, vital, *saving* principles of national action since our government was organized. It demands that that government shall be at last definitely and fully *placed* upon those great principles of true freedom for all men which the fathers *declared* but did not entirely establish in their immortal declaration. No principles! What has given us the grand and successive political triumphs of the past twelve years, but principles?—and such principles, too, as have enabled the party to outride and survive many mistakes of its leaders and much private corruption on the part of its office-holders? The elevation and grandeur of its principles, and the general fidelity with which they have been vindicated and placed in practical operation, have alone maintained the Republican party in power, and preserved it from the fate of its great but corrupt predecessor, the so-called "democracy" of the country. And this party will continue in power until its providential mission is fulfilled—all the efforts of all the powers of slavery and darkness to the contrary notwithstanding. The American Union is to be lifted up above all the nations of the earth, and made a great and shining light in the world, towards which all peoples are to be attracted, and by which all are to be eventually blessed with a higher and more complete humanity. And in this great work of regenerating our country and the world, the Republican party of to-day with its pure and just "principles," is a chosen instrument. It will stand until its part of the great work is finished, whether by peace or by war—and those who cannot see and appreciate its "principles" will go down to moral and political perdition, with that slavery of which they are but the natural outbirth.

THE GREAT WEST INDIAN CYCLONE.—The Nassau Guardian gives a long account of the recent hurricane which swept over the Bahamas. In Nassau some of the totals are as follows: Houses destroyed, 617; do. damaged, 600; churches and chapels destroyed, 5; do. damaged, 3; warehouses destroyed, 17; do. damaged, 18; shops destroyed, 12; persons houseless, 1039, &c.

From the out-islands the following are some of the results reported: Abaco, Green Turtle Cay, 40 dwellings blown down; Andros Island's Nichol's Town, all but six dwellings blown down; at Red Bay, all blown down or swept away by the sea; at Calabash Bay, 11 out of 13 dwellings blown down; Eleuthera, Current settlement, 20 dwellings; at Governor's Harbor, 40; at James Cistern, 36 out of 40; Harbor Island, only one vessel out of 13 was left uninjured, and 27 dwellings were blown down; at Long Island only 7 out of 39 stores and houses were left partly standing; at Rum Cay 180,000 bushels of salt destroyed; at Long Cay, Fortune Island, one-third of the salt crop was destroyed, together with 108 dwellings, 11 to 14 lives, 3 schooners lost, &c. At Ragged Island, 50,000 to 60,000 bushels salt were destroyed. The Guardian's summary of the out-islands likewise includes fifteen churches and chapels, and several others injured.

The damage to shipping shows: Totally destroyed, 2 steamers, 12 schooners, 23 slps. and smacks, boats, &c., making up the whole number to 92; vessels of all sorts seriously injured, 97; slightly do., 42. So far as was known only two lives were lost at Nassau.

THE NOVEMBER ELECTIONS. The New York correspondent of the Providence Journal, speaking of the approaching election in the former State says:

"The Custom House will roll up from two to three thousand votes through its immediate and prospective patronage; the Post-office will record from six hundred to a thousand more; the offices of the Marshal and District Attorney will be good for five hundred, and the Navy Yard, which fortunately is in Brooklyn, and cannot interfere with us, will muster five thousand votes to bother our friends in the Queens County District.—With all these disadvantages against us, it is hoped that we can keep Hoffman's majority to thirty thousand in New York city and county. If we can do this we shall have but little trouble."

The Chicago correspondent of the Cincinnati Gazette says that reports from all parts of Illinois, in regard to the political aspect, are most cheering. The Republicans have high hopes of gaining one Congressman in the Ninth District.

Colwell Colville, the Democratic candidate for Congress in the Second District of Minnesota, has declared that he is in favor of the constitutional amendment and of negro suffrage. The New York Evening Post says it knows that several of the Democratic candidates for the Assembly of that State, if elected, will vote for the ratification of the amendment. The world moves, and the Democratic party will eventually follow.

M. Samson, in the Revues des Cours litteraires, gives some curious anecdotes of actors. An actress was once playing Camille in the "Horace" of Corneille; at the moment when the actor had drawn his sword to pursue her, she stumbled and fell on the stage. The actress was M'lle Duclos; the actor one Beaubourg, who prided himself on his politeness. He stopped brandishing his sword, returned it to its scabbard, took off his hat and aided her to rise. Then when she had recovered herself, he again put himself into a fierce position. This, as M. Samson remarks, was the act of a well bred man, but not of an intelligent commedian.

The following is a statement of the funds in the cash vaults of the U. S. Treasury at Washington, which was published incorrectly yesterday:

U. S. notes,	$3,335,000
National bank notes,	140,749
Fractional currency,	215,841
Gold,	343,771
Silver,	2,725
Three cents coin,	480
Cents,	330
Total,	$14,038,896.

Since the close of the war there have been some changes of policy, but the steadfast purpose in the moral mind of the North to do justice to the freedmen has not altered.—The great meeting of the Freedmen's Commission in New York, at which Rev. Henry Ward Beecher, Thomas J. Durant and Gen. Howard made eloquent speeches, attests the earnestness of the effort to regenerate the South by encouraging its poor. Chief Justice Chase, in an interesting letter, accepts the permanent Presidency of the Commission. The Secretary's report shows that in the last year the Commission has sent out 760 teachers, supported 301 schools, and instructed 50,000 pupils. This good work must be maintained and forwarded, and the Christian intelligence of the North will not resist its appeal for aid.

The volcanic island of Santorino has not yet ceased its eruptions. Eight small islands, which had made their appearance one by one, are now joined together and still increase insensibly without emitting heat or vapor of any sort.

Three prisoners, chained together, on their way to New Orleans on a Mississippi steamboat, in charge of a sheriff, lately jumped overboard by common consent, and were drowned.

The number of votes cast in Philadelphia at the recent election was over one hundred thousand, or as many within a few thousands as were cast in Maine in September.

The debt of the United States on the 1st of October was equal to about two-thirds of the debt of England, and £23,000,000 less than the debt of France.

The New York Tribune charges one dollar a line each insertion, for advertisements in the weekly edition.

Matilda Heron Stoepel, the actress, has sent to the St. Louis Southern Relief Fair a set of very fine lace, three hundred years old, for which a New York lady had once offered her $5000.

The Grand Division, S. of T. of Eastern New York, are taking measures to form subordinate Divisions composed entirely of colored persons. For the present no visiting will be allowed between the white and colored Divisions, but it will undoubtedly result in full fellowship.

RATHER EMBARRASSING. A correspondent of the Biddeford Journal says the following questions, by an order from the "Chief of Bureau of Yards and Docks," has been read at muster, and propounded to the officers of the Kittery Navy Yard, with a request for a written answer:

"Have you been assessed or requested to pay any sum of money for political purposes, under any statement, threat or intimation that such contribution or the want of it would affect the prospect of your continuance in employment in this yard? And have any persons been dismissed from this yard on account of not paying such contributions?"

The "Chief" seems to squint rather hard at recent operations of "my policy."

BEEF ON THE DECLINE. The prices of beef are materially declining. The N. Y. World says:

Let beef-eaters rejoice. The cattle market has got a "black eye," and prices are strongly and steadily sinking downward. Within a year beef cattle have sold in this market at from 19 to 22c per pound; yesterday the price of average beef was only about 14 cts, while the prospect is that the market will be much worse for sellers before it is better. At least, such is the calculation of the oldest and shrewdest dealers.

Meat consumers should give dealers a hint of the fall in price, lest it may have escaped their attention.

WASHINGTON, Oct 28.

Official advices from Arkansas state that twenty-nine murders of freedmen, during the months of August and September, are on record, and that many more have probably occurred which are never heard from on account of the sparseness of the population. Not a single case of an arrest by the civil authorities for these crimes is reported.

—An attempt to break the will of a Mr. Allaine, who left $800,000 to his young and handsome second wife, who was also his mistress before the first wife died, and cut off his children with $100 each, though one of them is a widow and blind and poor, has just failed in New York.

MURDEROUS ASSAULT. The Press says that Mr. Nathaniel Crockett, an aged citizen, was assaulted by two men on Saturday evening, when going into the yard of his own house—being struck on one side of his head with a club, with sufficient force to knock his set of false teeth across the yard. Mr. C. shouted "murder!" and, there being persons near, the villains fled. The motive for the assault does not appear, but it was probably robbery.

SPECIAL NOTICES.

An Effectual Worm Medicine

BROWN'S VERMIFUGE COMFITS,

OR WORM LOZENGES. Much sickness, undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

CHILDREN HAVING WORMS require immediate attention, as neglect of the trouble often causes prolonged sickness.

SYMPTOMS OF WORMS IN CHILDREN are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making *Brown's "Vermifuge Comfits"* is such as to give the best possible effect with safety.

CURTIS & BROWN, Proprietors, New York. Sold by all Dealers in Medicines, at 25 cts a box. may 21—sn—d&wly

STOP THIEF.

STOLEN, at Oldtown, on the night of October 24th, 1866, from the stable of J. M. Robinson, by a boy 16 years old, who sometimes gives his name as William Coombs, but whose real name is Willard Fiske, ONE HORSE, WAGON, & HARNESS, and a Shawl Robe and Whip.

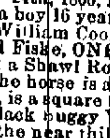
The horse is a dark sorrel, 7 years old, weighs 900 lbs., is a square trotter, and somewhat thin in flesh. A black buggy Wagon, with about 3 inches broken off the near thill. A second hand silver mounted breastplate harness. Robe black on one side, the other side yellow, with likeness of two Tigers.

☞ Whoever will arrest the thief, and secure the property, or give such information as will lead to the same, shall be handsomely rewarded.

☞ Any information may be sent to SIMON F. WALKER, Constable, Bangor, or the subscriber, at Oldtown. J. M. ROBINSON.

Oldtown, October 29th, 1866. 3td

A Great Bargain in a Farm.



The Farm belonging to the late NATHAN MAYO, of Hampden, is now offered for sale at a great bargain, if applied for soon. Said farm is situated on the road leading from Bangor to Monroe, and is very pleasantly located, 3 miles from Hampden Corner and 5 from Winterport Village. Is very easy to work,—well fenced, under the best cultivation, an excellent wood and timber lot; a good Orchard; buildings all in good repair; plenty of hard and soft water. The farm contains about 100 acres, with no waste land whatever.

Any one wishing for a good farm and home would do well to call and examine soon, as it is very desirable that all business should be closed up this Fall or Winter. Also, all the Farming Tools, Stock, Carriages, &c., &c., with the farm, or at separate bargain. For further information apply on the premises, or address GEORGE S. MAYO,
Hampden Corner, Maine.
Hampden, Oct. 30, 1866. 3td&w3t*

WILLCOX & GIBBS

TWISTED LOOP-STITCH

(NOISELESS)

Family Sewing Machine.

CHARLES HALE, *Agent*,

24 MAIN STREET, BANGOR, MAINE.

Grand Trial of Sewing Machines,

(Between the Willcox & Gibbs and Florence)

THE WILLCOX & GIBBS TRIUMPHANT.

IT is declared the BEST MACHINE, and awarded the highest premium.

For the Willcox & Gibbs Machine THIRTY-FIVE distinct claims were made for superiority, ALL of which were fully sustained; for the Florence Machine but TEN were presented, only TWO of which were sustained. By this trial, more thorough than any of the kind ever previously attempted—a trial before an able and impartial jury, the justice of whose verdict none can dispute—it has been proved, decided and published to the world that the Willcox & Gibbs Machine is just what it has claimed to be—AN IMPROVEMENT ON DOUBLE THREAD MACHINES. It requires, we think, no prophet to foresee its accelerated progress in the future, or to foretell its ultimate triumph as the recognized Standard Sewing Machine of the World.

Circulars, containing full report of the Judges and all particulars at this important trial, at the office of the Willcox & Gibbs Sewing Machine Company, 28 Main Street, Bangor, Maine.

NewspaperARCHIVE®

TELEGRAPHIC
TO THE
Whig & Courier.

News from the Capital.

Interesting Reports in Regard to the Grain Crops.

Another Heavy Gale on the Coast Reported.

The War in Mexico.

Ex-Rebel Postmaster General Reagan in Favor of Equal Rights.

WASHINGTON, Sept. 29.

The returns to the department of agriculture state that the corn crop has deteriorated from early frosts, and excessive rains, but the quantity of the crop is larger than was ever chronicled in the country.

The yield of wheat will not vary much from 143,000,000 bushels, showing a small per centage of decrease, which is fully compensated by the comparatively superior quality of the grain. This is 10,000,000 bushels more than the crop of 1859, and within 5,000,000 bushels of a product in proportion to the increased population. The diminution in the South is more apparent. The estimates point to less than 17,000,000 bushels in eleven States heretofore unreported—a fraction less than five tenths of the crop of 1859. The California wheat harvest, of which little not has been publicly made in connection with the present crop, is excessive. In 1860, the product of that young State was nearly 6,000,000 bushels. Now it is seriously claimed by leading California agriculturists that the surplus for export will nearly double that quantity.

It is evident the entire wheat crop will exceed by several millions that of 1859 when the yield was reported at 173,104,924 bushels. Then there were five and a half bushels to each individual. In 1866 the estimates point to five bushels to each inhabitant. There is no ground then for apprehensions of a scarcity and little excuse in the amount of the crop for starvation prices.

The yield of oats is extraordinary and the quality excellent. The indications point to an increase of from 171,497,072 bushels in 1859 to 271,912,656 in 1866. It is the only crop in the South that maintains an equality with its last census exhibit.

Hay is less in quality than in the previous year by from one to two tenths, but is better in quality.

An analysis of Southern returns up to Oct. 1st does not warrant a reduction of the former cotton estimate much, 1,750,000 bales, though it is too early for a final estimate.—The severity of the damage from insects is reported increasing.

WASHINGTON, Oct. 29.

The disbursements of the Treasury Department for the week ending Oct. 27, were as follows:

War Department,	$2,208,180
Navy "	607,279
Interior "	296,429
Total,	$3,190,888

This afternoon the Tammany Committee had another interview with the President, by appointment, when an answer to the memorial addressed to Hon. Wm. M. Tweed, Chairman of the Committee of Tammany Hall, was handed to them.

The President acknowledges the receipt of the resolutions they submitted, and enclosed a copy of his reply to Mayor Hoffman, of New York, in answer to the communication of that officer, as covering all the points in the case.

The letter of Mayor Hoffman referred to, enclosed to President Johnson the resolutions passed by the Councils of New York, in reference to the Fenian prisoners in Canada.

The President refers the Mayor to Sec'y Seward's note to Consul Thurston, and the letter to Sir Frederick Bruce, published today, and hopes they will convince the council of the determination of the Government to protect its citizens, wherever they may be.

The Committee expressed themselves much satisfied at their interview and satified with its results. They left for New York this p. m.

A Committee, consisting of employees in the Quartermaster's Department, waited upon the President this morning for the purpose of obtaining a reply to their petition relative to the reduction of their pay.

The President dissents from the reasons of the Quartermaster General for a reduction, and in a communication to the Secretary of War, requests him at once to designate competent officers as a board, to make inquiries, and report to the War Department the rates which should be allowed. This order, he adds, will apply to the two petitions accompanying the applications to which these instructions refer, and will for the present, operate against any reduction of wages of the employees, in whose interest they had been presented.

FORTRESS MONROE, Oct. 29.

Bishop Lynch of Charleston arrived here yesterday morning from Baltimore, and resched at the Catholic Chapel. He was a guest of Gen. Burton, the commandant of the Fortress, and visited Jeff Davis's family, with members of which he had been acquainted many years. He left for New York this afternoon, intending to take the inland route for Charleston.

Schr Arlington, from Savannah for New York, with a cargo of lumber, arrived this morning; she was 15 days out, having encountered northeasterly weather and drifted to sea, in the Gulf Stream.

Shortly after leaving port, all her crew, excepting three, were taken down with a violent fever, and two died.

It is snowing quite heavily outside. The wind is easterly.

Steamer Lula has put in here for a harbor. Steamer George Appold har arrived from Boston.

GALVESTON, Texas, Oct. 29.

Brownsville papers are received. Skirmishing was going on between Cortinas and Canales.

Cortinas has postponed the attack on Matamoras, at the request of Tona.

Juarez had sent commissioners to Canales to put them into the Calaboose.

Ex-rebel Postmaster General Reagan publishes a long letter referring to his former letter. He is very strongly in favor of granting negro suffrage and all other rights, the same as white men.

NEW YORK, Oct. 29.

There is a heavy rain storm with a high wind to-night.

European advices per cable have not been received, owing to storm which has prostrated the eastern wires.

PHILADELPHIA, Oct. 29.

At the race to-day at Point Breeze Park, Dexter, Patchen and Polly Ann, were entered. The former won all the heats—time 2,23½, 2,27, 2,28.

HUDSON, N. Y., Oct. 29.

On Saturday night a man named Allen living in Taghanic, who has been crazy for past few weeks, murdered his wife by choking her.

Saturday evening a murderous assault was committed by a negro on three white citizens. The attack was made with a razor, and a serious wound inflicted on one of the party. The negro was subsequently arrested, but escaped.

BALTIMORE, Oct. 29.

A fire broke out this evening in the large warehouse No 246 Baltimore street, occupied by Fairbanks as a scale warehouse, and by Marston Bros. as a china store. During the progress of the fire a cornice fell, badly injuring three firemen on a ladder. Two, it is thought, will die. The loss by the fire is quite heavy. The stock in the Messrs. Turnbull's store, adjoining, was slightly damaged.

The examination of the charges against the Police Commissioner was resumed to-day at Annapolis. Some twenty witnesses were examined, when, at one o'clock, the prosecution announced that they were through, but would have some rebutting evidence. The examination of the witnesses for the defence will commence to-morrow.

A heavy southeast rain storm is prevailing this evening.

LOUISVILLE, Oct. 29.

The Courier publishes recent decision of the Court of Appeals in reference to Gen. Palmer who was indicted in an inferior Court for aiding the escape of slaves.—Palmer was discharged by the lower Court and on an appeal the Court of Appeals remanded the case to a lower Court for the trial of Palmer. This gave rise to a report that the Court of Appeals had decided that Gen. Palmer was guilty of felony, &c.

The health of Mr Prentice is improving.

In the three year old stakes to-day Alexander's gray colt, by Pilot, Jr., distanced his competitor over a very slow track.—Time 2.51.

NEW ORLEANS, Oct. 29.

Arrived—Steamships Montgomery, Gen'l Grant, and Morning Star—all from New York.

Steamship Morgan, from Mobile for Galveston, foundered, 50 miles off Galveston—no lives lost—cargo insured.

Steamer Hattie, from Apalachicola for New Orleans, sunk in Apalachicola harbor. The cargo will be saved, damaged.

SAN FRANCISCO, Oct. 29.

Prime wheat closed on Saturday at 1,85 with an upward tendency.

Shipments continue large, but more tonnage is required.

China rice is quoted at 7c.

Rio and Costa Rica coffee at 24; Java at 26 cents.

Eastern butter at 40c.

Crushed sugar at 12½c.

The British war steamer Scout sailed for Victoria Saturday.

Ship Templar, from Boston, reports large fields of ice and icebergs off Cape Horn.

NEW ORLEANS, Oct. 29.

Governor Humphreys of Miss., in view of the precarious condition of Jeff Davis' health, recommends the Legislature to appoint one or more commissioners to proceed to Washington to confer with the President with a view to his release on parole or bail.

Lieut. Gen. D'Joaquin del Manzahs succeeds General Lorzandi as Captain General of Cuba.

It is reliably stated that Gen. Sheridan has been ordered to report at Washington. It is understood that the order originated from the present condition of our Mexican relations.

Molasses firm—sales 250 hhds—Muscovado 46 a 56.

Freights to Liverpool quiet.

—Aowell Rose, the old citizen of Coosa, so well known for his wealth and for his eccentricities, died last week at his log cabin in Coosa county, Alabama. By hoarding his means for many years he had been enabled to accumulate a property of nearly $300,000, all of which passes by his death to the use of his wife for life.

—The Yarmouth Register says that the whole number of vessels in the whaling business from Provincetown the present year is forty-three, carrying seven hundred and fifty men and boys.

LOCAL AND OTHER ITEMS.

—We frequently have persons asking us to examine this, that or the other interesting matter or thing pertaining to them or their business, and give it a "notice" in our paper. Whenever the thing is a matter of public improvement or interest, or is likely to *benefit* the public we are ready and willing to notice it gratuitously—always provided that it is not a legitimate subject for *advertising* first. If the person constructing or owning the improvement, or whatever it may be, is to reap a pecuniary return from its adoption by the public, then he should be willing to pay the printer a fair amount for advertising, and not ask him to do so gratuitously as a matter of news. Fair play is a jewel.

—In Police Court yesterday, John Kelley paid the moderate price of $8,98 in full for a spree and its consequences. It cost less than the liquor, probably.

—We learn that Mr. Larrabee was quite comfortable yesterday, and in a fair way to recover speedily from the slight attack of paralysis which he experienced on Sunday morning.

A CREDITABLE CHANGE OF BUSINESS. In referring to the crowded state of our markets occasioned by the rush of potatoes and apples, for shipping before freezing weather and the close of the river to navigation, the Times says that the once notorious slave trader Wanderer is here loading with potatoes for a Southern market.

STOLEN. On the night of Oct. 24th, a dark sorrel horse, about seven years old, was taken from the stable of J. M. Robinson at Oldtown, together with a buggy wagon and harness. A liberal reward is offered for the recovery of the property and the detection of the thief.

—The exterior of the new engine house now building on Harlow street is about completed, and the interior will be finished, ready for occupation, before the first of the coming year. It is a solid and very convenient structure, and will, moreover, make a decided improvement in the appearance of the street in that vicinity. With two stories and ample stories, besides the basement for stable and reservoir, it also has a campanile or bell tower, in which it is proposed at some future time to place a fire-bell of peculiar tone, and of weight sufficient to send its summons over the whole city—and to be used on no occasion except that of fire alarm—and we hope it will then be made the duty of some one to *give* the alarm. The comfortable stable in the basement is of sufficient size for all the needs of the horses belonging to the department, and they will be ready at all times for instant attachment to the steamers. About one-half of the basement, or a portion 40 feet by 20, is set off and reserved for the purpose of a reservoir, to be eight feet in depth, and of 25,000 or 30,000 gallons capacity. This will be an important adjunct to the main reservoir on Harlow Street, near by.

—Mr. T. J. Whiton is erecting a large building—some 90 by 40 feet on the ground—on the wharf in rear of the new engine house—in which to carry on the main operations of his carriage manufacturing business.

LOST OVERBOARD. Capt. Adolphus Pendleton, of schooner Mary Emily of this city, was lost overboard Sunday afternoon, off Sandy Point, while towing down river. We understand that he belonged in Islesboro.

—Quite a little snow-storm was in progress, bidding fair to accumulate several inches before morning. The weather, however, was "moderating", and the rain soon set off.

—Rev. Mr. Everett has recently been ministering a few weeks to the new Unitarian society in Washington.

MARINE DISASTERS. The Boston Advertiser of yesterday has nearly a column of disasters caused by the recent terrible hurricane on the Atlantic. We copy those relating to vessels from this vicinity:

Brig J P Ellicott, Gray, from Bangor for Port au Prince, with lumber, was dismasted and drifted on a reef near Harbor Island, Idita, where she split open and became a total wreck. She registered 194 tons new measurement, rated A2, and was built in 1852 at Bucksport, whence she hailed.

Brig Julia Bartlett, Bartlett, from Nevasa for Philadelphia, with guano, was totally lost, 1st, near Lantern Head, Inagua, and two of the crew drowned. Materials saved and sold at Matthewtown. She was a new vessel, on her first voyage, and was owned in Bangor.

Brig Hydra of Searsport, before reported dismasted near Long Bank, was towed into Nassau on the 14th.

Brig Hattie May of Belfast, Nickerson, from Lingan, C B, for Charleston, encountered a gale from the eastward on the 14th which continued four days. On 15th Dan'l Cronan of Prince Edward's Island washed overboard from the wheel and lost; same sea washed away forward house, stern boat and everything moveable from the deck.—The waves again broke over the vessel carrying main boom, main sail, staving companion way and doors, and filling cabin with water. Shortly after rolled away all spar above foremast, head and shifted cargo.—Captain Nickerson, who went aloft to clear the wreck, was thrown from the foretop and severely hurt. On 19th spoke British brig George F, and as the brig's yards and sails were all gone, starboard pumps under water, provisions all destroyed, Captain disabled and crew worn out, it was deemed prudent to abandon the vessel. All hands were accordingly transferred to the George F, and were landed at Holmes' Hole.

Sch Elizabeth Cowell, Smith, from Bangor for Norwalk, Conn, lost overboard 30,000 laths in the late gale, and a seaman named William Atwood was knocked overboard by the fore boom on Tuesday night, and drowned.

—The Gardiner Reporter says the Maine Episcopal Convention will meet in that city on Wednesday. The most important business of the session will probably be to elect a Bishop for the Diocese of Maine. There are several candidates mentioned, but it seems to be pretty generally understood that the choice will be confined to two—the Rev. Alexander Burgess, of Portland, and Rev. Mr. Doane, of Hartford, Conn. The Rev. Bishop Cox, of Western New York, is also announced to preach a Memorial Sermon on the life and character of the late Bishop Burgess.

—We learn from the Rockland Gazette that the Baptist denomination of this State deem it important to the interests of the cause to establish and maintain a Ministerial Institute, which shall have annual sessions of at least eight or ten days continuance, at which all the ministers in the State may assemble and listen to lectures from the ablest men of the denomination upon theological subjects, conduct friendly discussions, and engage in other exercises for the promotion of their intellectual and spiritual improvement. A two days' session was held at Saco as an experiment last June, which was a decided success. It is now proposed to hold such an Institute at Waterville, commencing Nov. 26th and continuing for ten days. It is to be hoped that pastors and people may cordially unite in this work.

—The Argus chronicles a flying leap of a horse in passing up Commercial street on Saturday. He came to some skids upon which men were rolling flour barrels into a store, and not daring to stop made a fine leap and went over the skids in handsome shape, and, what is more remarkable, took the buggy and driver with him without breaking a thread. The driver was very severely astonished but was not thrown from his seat.

ORDINATION. Mr. Abiel H. Wright is to be ordained and installed to-day over the the Congregational Church of Frankfort and Winterport. Sermon by Rev. George W. Field. Rev. Messrs. Chapin of Camden, Houston of Sandy Point, Pond and Harris of Bangor, Storey of Orrington, Parker of Belfast, and Adams of Searsport, will participate in the exercises. Mr. W. is a young man, of fine talents and thorough education.—[Jeffersonian.

—We are in receipt of the Eighteenth Annual Catalogue and report of the New England Female Medical College, Boston. This institution was opened in 1848, and is the oldest institution of the kind in the world. It has graduated more than sixty students, some of whom have had an extensive practice. We notice that a number of Bangor ladies are donors to this College.

The jury in the breach of promise case mentioned a day or two since as being on trial at, Machias, failed to agree, standing eleven for plaintiff and one for defendant. The Republican says that "a verdict for five thousand dollars for the plaintiff would have been received by this community with acclamation."

—The Farmer says that a pound of mustard seed, two pounds of raisins and a quarter of stick cinnamon, will clarify and preserve a barrel of cider. Also that good vinegar may be made by pouring boiling water upon the parings and cores of apples, adding a little molasses and yeast, and letting it stand three or four weeks in a stone jar.

—The Portland & Kennebec Railroad Co. will probably run a train of cars either this fall or next spring, in connection with the steamers Star of the East and Eastern Queen. The steamers are to go up the Kennebec no farther than Gardiner. A track is to be laid to the steamers' wharf to take passengers and freight.

—The Machias Republican man has seen at the Castine Custom House, among other goods seized for smuggling, $4000 worth of liquors, and a barrel of sugar of lead and other articles to be used in the *manufacture* of liquors in this country. The goods were seized on vessels from the Provinces.

—Mary Knights of Topsham, 13 years of age, died last Saturday of a peculiar disease. She would drink a large pailful of water during the night. Sometimes she would drop down going from school entirely helpless. Her blood changed to sugar. She was sick six months.

—A meteor of unusual size and brilliancy passed over Biddeford on Thursday afternoon. Meteors or "falling stars" may now be seen almost every clear night—and are, perhaps, avant couriers of the great meteoric display expected on the 12th, 13th or 14th of November.

—The Lewiston Journal says that a man named Dudley was instantly killed last week in Dixfield. He was pulling stumps with the aid of a patent machine, when a hook gave way and struck Mr. D., passing clear through his body without stopping its course.

—The Saco Democrat says a few weeks since, a cow belonging to Mr. N. Proctor of Wells, met another belonging to a neighbor, Mr. G. Lord, in the highway. A short fight ensued in which the latter was killed by having her neck broken.

—We learn from the Lewiston Journal that the present population of Androscoggin County is put down at 35,000 against 29,786 in 1860—an increase of between 5000 and 6000. It puts down the population of Lewis at 10,500, an increase of 1000 since 1860.

—The Captain's wife of a schooner which foundered at sea last week, saved herself and the crew by whipping off her balmoral skirt and flaunting it to attract the attention of a passing vessel. Good for the petticoat.

—Capt. Elijah Norton formerly of East Machias, died recently at Philadelphia of fever. He was master of the schooner Cygnus, the crew of which were all sick at one time.

The Ellsworth American says the town authorities have instituted a police to take care of night walkers and street rowdies—of which there is considerable need, there as elsewhere.

—Capt. Zelotes Knowles, of Addison, died of fever, at Jacksonville, Florida, about ten days ago. He was master of the vessel built last year by his father, Leander Knowles.

—The Androscoggin Mills, Lewiston, are to have a new cotton factory in operation in February, capable of turning out 105,000 yards of cloth per week.

—An axe factory has been established at Calais by Mr. E. Graves, which is to be enlarged next spring to the capacity of thirty dozens per day.

—The father of all squashes was raised in Avon by Mr. Hiram French. It measures six feet by six feet five inches, and weighs 137 pounds!

—There were nineteen vessels at the wharves in Gardiner one day last week—quite an unusual number.

—The matter of forming another manufacturing company in Lewiston is being agitated.

—The Androscoggin Mills have manufactured 1,000,000 bricks this season at their brickyard.

—Gen. Caldwell has been holding meetings for the special benefit of the teachers of Ellsworth, as we learn from the American.

—There was a fall of snow at Chicago last Monday in Northern Vermont on Thursday.

—The Baptists of Livermore Falls have completed a fine new church.

Advertisement.]

Upon the health of the teeth depends the purity of the breath. Preserve them unblemished by the use of the famous *Sozodont*, that perfectly harmless vegetable preparation, and you will never regret it.

—The luxuriant crop of diamond jewelry that adorned the employees of the Buffalo and Lake Huron Railroad induced the management to establish a system of espionage, and the result is the arrest of a large number of conductors and subordinates for extensive embezzlements.

—It is an interesting item in the history of the Atlantic Telegraph that the manufacture of the wire for the cable laid this year kept nearly two hundred and fifty hands employed in England for eleven months.—Upwards of thirty thousand miles were supplied.

An Irish editor, in speaking of the miseries of Ireland, says: "Her cup of misery has been for ages overflowing, and is not yet full."

A school mistress advertises that "she is complete mistress of her own tongue."—Then she can't ask too much for her services.—Exchange.

Four Years of Fighting
BOOK OF BATTLES:
A VOLUME of Narrative, Incident, and Personal Observation, with the Army and Navy, East, West, North, and South, from the first battle of Bull Run to the Fall of Richmond, by CHARLES CARLETON COFFIN,
"CARLETON,"
The Army Correspondent of the "Boston Journal," and author of "Winning his Way," "Following the Flag," "My Days and Nights on the Battle-Field," &c., beautifully illustrated, with a Steel Engraving of the Author, on the highest style of art, by RITCHIE, and FULL-PAGE ILLUSTRATIONS.
His letters have given delight to millions of loyal hearts in our own land, and many of them have been republished in England, France and Germany. His descriptions of battles are marked by clearness and vigor of comprehensive statement, a truthfulness and correctness which give them a high historic value.
The volume is wholly historic. In addition to the description of battles, incidents of marches, the camp, and the hospital, there is a chapter of exceeding interest, giving the secret history of the rebel cotton loan in England and France, from original documents which were obtained in Richmond.
This volume will be sold by subscription exclusively. It forms a handsome octavo volume of about 550 pages,—558 of reading matter,—printed on fine paper and in clear type. Price in leather, $4.50; cloth, $3.50.
The agent, J. W. WELLINGTON, will be at Bartlett's Book Store, corner of Exchange street and Kenduskeag Bridge, from 8 to 9 A.M., and 12 to 2 P. M., where copies of the work can be seen.
FOUR YEARS OF FIGHTING is sold wholly by authorized agents, and never put in the Book Stores.

THE
Great New England Remedy!
DR. J. W. POLAND'S
White Pine Compound
IS now offered to the afflicted throughout the country, after having been proved by the test of eleven years, in the New England States, where its merits have become as well known as the tree from which, in part, it derives its virtues.
The White Pine Compound
CURES
Sore Throat, Colds, Coughs, Diptheria, Bronchitis, Spitting of Blood, and Pulmonary Affections generally. It is a Remarkable Remedy for Kidney Complaints, Diabetes, Difficulty of Voiding Urine, Bleeding from the Kidneys and Bladder, Gravel and other Complaints. For Piles and Scurvy it will be found very valuable.
Give it a trial if you would learn the value of a GOOD AND TRIED MEDICINE.
IT IS PLEASANT, SAFE AND SURE.
B. F. BRADBURY, General Agent, Bangor.
Sold by Druggists and Dealers in Medicines generally. oct 24 eowom

INTERESTING
—TO—
HOUSE-KEEPERS
THE Subscriber offers to the citizens of Bangor, a rare chance to avail themselves of the unparalleled benefits of GOL. A. BAILEY'S
CELEBRATED FEATHER DRESSING
AND
RENOVATING MACHINE
The most successful patent of the kind ever offered to the public; and we venture the prediction that it never will be excelled, for it proves to be exactly what all conditions and qualities of feathers, from entirely new to old and much worn, need to render them as perfect as age, quality and condition will admit of their being made. The cleansing is done entirely by steam.
One dollar and fifty cents per bed, including the pillows and bolsters, provided the feathers are suitable to run with the bed.
I will call at each house to receive the beds and return them when finished.
Rooms at Stable Office back of Hatch House.

NEWSPAPERARCHIVE®

Whig & Courier

Last Hours of a New Orleans Martyr.

AN AFFECTING SKETCH.

[Concluded.]

Only the darkness of the dangerous streets and the restraint of friends prevented the almost distracted woman from going forth that night to continue the search herself. As it was, the night brought no sleep to her eyes, and as soon as it was morning she started on her sad errand.

Information had been received through the city papers that Gen. Baird, the military commander, had released all who had been arrested and confined by the police, giving the name of her husband among the rest, and stating that he had returned home. Acting on this representation she went alone to Carrollton, but only to return by the next train. He was not there. Without waiting for breakfast she set off for General Baird's headquarters; a young Methodist clergyman, Mr. Henry, one of Mrs. E.'s boarders, insisted on being her company.

No sooner did Gen. Baird see Mrs. Horton and know who she was, than he expressed much surprise that her husband had not been seen, and told her he had ordered his release. Perhaps she would find him at the City Hall. To this place she immediately went, but she searched in vain. He had not been there. She then hurried to the First Police Station determined to wring from the brutal officers a confession of what they had done with her husband. Entering the office, she forced her way within the rails, and asked of the clerk what had been done with her husband. The man declared that 'preacher Horton' had been sent to Charity Hospital, and she at once hurried thither. Again she was disappointed. He had not been seen there! (The truth was, the cart which carried Mr. Horton's body had stopped there, and been sent away, as it appeared to be occupied only by blacks.) The horrible idea now suggested itself to the afflicted woman that her husband had been conveyed away with a load of dead bodies, and had been buried alive, but, as a last resort, she determined to visit the Marine Hospital. This was in a low and distant part of the city, and devoted entirely to negroes, and she could not have believed he would be carried there by his worst enemies, but at a friend's suggestion she sought the place, still accompanied by Mr. Henry.

Arrived at the gate, she was refused entrance, but catching a glimpse of Dr. Harris, the head surgeon, whom she knew, she called to him, and asked if her husband was there. Dr. Harris gave her no positive assurance, but immediately ordered the servant to admit her. Forgetting her weariness in her joy that her long quest had at last succeeded, the faithful woman bounded up the steps, and without waiting to be directed, rushed in among the patients, found her husband, and sank exhausted upon his bosom. What a spectacle! The form she loved a bruised and helpless mass of flesh and blood, his head swollen to the size of two, his left arm useless, and his right arm shattered and mangled. He moved perpetually about with the restless, nervous gestures of a dreaming infant. So badly trampled and beaten was his head and face that his eyes were blinded, and a painful retching, produced by the injuries to his stomach, obstructed his breath and speech. But through all the anguish and darkness of his wreck he knew his wife. That she should have recognized him is a miracle to all who do not understand the inspired sagacity of a wife's affection.

Wipe my face Emma," he gasped, as if she had been bending over him ever since he fell.

Worn and broken hearted the poor woman sat down by her husband's side, and tried to strengthen herself for the task of soothing and comforting his last hours, for she knew too well that he could not live. Nineteen long hours she had searched for him, and now to find him thus!

Few comforts were to be found in that hospital, though the attendants seeing her distress, evidently meant to treat her kindly. Up to this time the wounded man had lain in the warden's room, but on the next morning, which was Wednesday, he was removed to a more airy apartment. The operation of trepanning was then performed on his head, though with little hope of permanent benefit. When this was over, and the burden upon his brain was thus relieved, the sufferer looked up and repeated

'When I can read my title clear
To mansions in the skies,
I'll bid farewell to every fear,
And wipe my weeping eyes.
Should earth against my soul engage,'—

Here weakness prevented him, and he whispered to his wife, 'you finish it.'

He slept a good deal, but seemed always conscious of his wife's presence, frequently putting up his restless hand to touch her face, and remind himself, in his blindness, of her loved features. When he talked it was of his unfinished work, his convictions of the justice of the cause in which he fell, his anxieties for his wife left alone in a cruel world, and of his enemies and murderers, always forgivingly, as if they knew not what they did. At different times, too, he spoke of the riot, relating facts and incidents as I have set them down.

It afflicted him much to leave his wife penniless. He had a little money in his pocket when he came to the Convention, but that, with the gold studs in his bosom, had been plundered by some of the ruffians who took part in mutilating his person.

Thus he lingered until the sixth day after his injury. When the morning of Sunday, the 5th of August came he remembered that he had an appointment to exchange pulpits with a colored brother in the city, and said, 'Emma, we must send word to Bro. Miles that I can't come. I don't feel well enough to preach.'

As time went on his mind began to wander, and he fancied himself in his own pulpit. He invoked the divine blessing, he gave out a hymn and sung, wounded and suffering as he was, his wife, who wept as she thought of the melody of his once fine voice, joining him at his request, half choked by her tears. Then he prayed with her, sung again and preached, taking for his text, 'Out of the abundance of the heart the mouth speaketh.' After these exercises he expressed his wish to close with the Lord's Supper, and immediately began the beautiful ceremony. His wife anxious to gratify him skillfully aided with such meagre conveniences as were at hand, to carry out his touching fancy. He partook with her what seemed to him the symbolic bread and wine. 'We both drink from the same cup, Emma,' he said. Another hymn, a benediction, and the sufferer began to grow weak, as if indeed his work was done.

'I am going now, Emma,' he whispered 'I'm sorry you can't come with me. In the fall you'll come.'

Then there were no more connected sentences, but incoherent syllables of prayer, and whispers of saintly hope, 'In the vale—the vale—home yonder—good by, and at six o'clock that Sabbath evening the gentle spirited Horton fell asleep in Jesus.

Thus perished a martyr to freedom and equal rights, as sincere and pure a man as God ever welcomed through great tribulation to the immortal pleasures of His patience.

To the tender consolation of her friends, never so numerous as now, and to the merciful consolation of Almighty God, who never puts more in the cup than we can bear, we commend the weeping widow, and pray that she may live to share the honor of her martyred husband.

ALBERT NOYES & CO.

Bangor, Oct. 11, 1866. 2m

SNOW POWDER

Patented May 29, 1866.

This is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and unlike other preparations offered for like purpose, WILL NOT ROT THE CLOTHES, but will leave them much WHITER than ordinary methods, without the usual wear and tear.

It removes grease spots and by mixing and softens the dirt by soaking, so that rinsing will in ordinary cases entirely remove it.

This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used. Among the advantages claimed are the following, viz:—

It saves all the expense of soap usually used on cotton and linen goods

It saves most of the labor of rubbing, and wear and tear.

Also, for cleaning windows it is unsurpassed—With one quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode. No water required except to moisten the powder.

Directions with each package.

And can be readily appreciated by a single trial. The cost of washing for a family of five or six persons will not exceed THREE CENTS.

The manufacturers of this powder are aware that many useless compounds have been introduced to the public which have rotted the cloth, or failed in removing the dirt, but showing the intrinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and which has heretofore remained unsupplied. Manufactured by

NOTICE TO

Mill Owners and Millwrights.

Improved Lever Pressure Centre Vent

ECONOMIZING

WATER WHEEL!

Invented and Patented by W. R. Close,

BANGOR, MAINE.

THE Subscribers would ask the attention of Mill Owners and others interested in Water Wheels to their *Patent Centre-Vent Wheels*, manufactured at T. N. Egery's Foundry.

We claim superiority over other Wheels for various reasons, the chief of which is the economical use of water. Trials of these wheels the past season have demonstrated the fact that they will do the same work with one half the water required for any other wheel used on the Penobscot River.

2d.—The amount of water vented upon the wheel is self-regulated by a device embodied in the Patent; hence, when the saw is out of the cut, or the labor is in any way decreased, the speed of the wheel remains the same, thereby avoiding shocks to the machinery, and those break-downs which result from the sudden acceleration of speed, when a wheel does not regulate itself.

3d.—This is an anti-freezing wheel; by a patented arrangement, that trouble in wheels run in Northern climates is avoided. This wheel needs no "cutting out;" it never freezes.

4th.—It is equally well adapted to both horizontal and vertical Shafts; it is cheaper than any other Wheel, and can be readily applied to any old wooden or iron shaft without change of gearing.

☞ By using this Wheel a large majority of Mills can run double the time that they now do, for the reason that it can run with half the water required for any other; hence all those owning mills upon streams where the water is limited, will see the advantage of using these wheels.

BANGOR, Sept. 21, 1866.

Messrs. Dinsmore & Close:—Having put in operation, in our new Saw Mills at West Great Works, Oldtown, one of your new patent Mill Wheels, manufactured at Egery's foundry in this city, and fully tested it, we take pleasure in saying that it more than meets our expectations. We are now driving with it, under a nine and one-half feet head, a Clapboard, Sapping, and Shingle machines; Shingle jointer and two cutting-off saws, with but 200 inches of water, admitted or let on to the wheel through a trunk or spout measuring 12 inches wide and 17 inches high. Its operation gives us entire satisfaction, and we consider it superior to any other wheel within our knowledge, and cheerfully recommend it to all in want of wheels.

W. H. SMITH.
WM. T. PEARSON.

BANGOR, Sept. 21, 1866.

Having witnessed the operation of the above Water Wheel, in the mills of Messrs. Smith & Pearson, at West Great Works, also in the mill of Messrs. Copeland, in Holden, and in Messrs. Comins' mill, in Bradley, both driving a 50 inch circular saw mill, I can with full confidence recommend them as possessing and combining qualities for power, economy in water, regularity of speed, and cheapness of construction, over any other water wheel known to me.

WEST GREAT WORKS, Oldtown, Sept. 26, 1866.

Having as millwright, under the direction of Messrs. Smith & Pearson, charge of the erection of their new saw mills at this place, in which one of Close's Patented Water Wheels has been put in operation, I fully concur in the opinion given by Messrs. Smith & Pearson and Mr. Egery, as to the merits of said wheel. DAVID GATCHELL,

Master Millwright.

NEWPORT, Sept. 24, 1866.

Messrs. Dinsmore & Close:—This may certify that I assisted the past summer in putting into the West Great Works mills at Oldtown, for Messrs. Smith & Pearson, one of your Patent Water Wheels, of seven feet diameter, made at T. N. Egery's foundry, and am pleased to say that in my opinion it requires for its successful operation the least quantity of water of any wheel I have ever seen, and I cheerfully recommend it to all who may be in want of wheels, especially upon privileges where the amount of water is limited. J. G. CHANDLER, Millwright.

HOLDEN, April 12, 1866.

Messrs. Dinsmore & Close:—This may certify that I have lately removed from my saw mill a "Brastow Water Wheel," and put instead one of your Water Wheels, and after a thorough trial I am satisfied that I can saw twice the amount of lumber I formerly sawed, and use not more than one-third the amount of water formerly used with the Brastow Wheel, which wheel I have always considered a very economical one, on a privilege where the amount of water was limited. And I take pleasure in recommending your Wheel to all who use water wheels, especially to such as have a limited supply of water. THOMAS R. COPELAND.

I concur in the above statement.

CHARLES COPELAND.

The price of these wheels are as follows:—7 feet diameter, wheel, $160; 5 9-11 feet do., $155; 5 feet do., $135; 4 feet do., $125.

☞ For full particulars, address or apply to the Proprietors of the Patent, or examine the Wheels at the Foundry of T. N. EGERY, of Bangor, where they are manufactured.

THE ONLY REMEDY KNOWN FOR

DIABETES,

STONE IN THE BLADDER, CALCULUS, GRAVEL, BRICK DUST DEPOSIT, AND MUCOUS OR MILKY DISCHARGES AFTER URINATING.

IRRITATION OF THE NECK OF THE BLADDER. INFLAMMATION OF THE KIDNEYS. CATARRH OF THE BLADDER.

STRANGUARY AND BURNING, OR PAINFUL URINATING.

For these diseases it is truly a sovereign remedy and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips. A teaspoonful a day of the Constitution Water will relieve you like magic.

PHYSICIANS

Have long since given up the use of buchu, cubebs and juniper in the treatment of these diseases, and only use them for the want of a better remedy.

CONSTITUTION WATER

Has proved itself equal to the task that has devolved upon it,

DIURETICS

irritate and drench the kidneys, and by constant use soon lead to chronic degeneration and confirmed disease.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful in curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.

STROUDSBURG, Pa., Jan 20, 1866.

DR. GREGG:

Dear Sir:—I wish to inform you that I have been under the treatment of some of our best physicians for nearly two years, without receiving any benefit. I had lost all confidence, and I indulged in but little hope of a cure from any source. My disease was Dropsy, and my physicians told me that there was no cure for me. I was tapped some fifty times, and at the different operations about 1200 pounds of water was removed.

I am happy to inform you that I have been completely restored to health by the use of Constitution Water.

I make this statement hoping it may reach those persons who may be similarly afflicted.

Respectfully,

MRS. MARGILL C. LEVANWAY.

IN DYSMENORRHŒA, OR PAINFUL MENSTRUATION, AND MENORRHAGIA, OR PROFUSE FLOWING.

Both diseases arising from a faulty secretion of the menstrual fluid—in one case being too little and accompanied by severe pain, and the other a too profuse secretion, which will be speedily cured by the Constitution Water.

That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides and at times accompanied by sharp, lancinating or shooting pains through the parts, will, in all cases, be removed by the medicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call Nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can only enumerate them here. I speak more particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flashes of Heat, Languor, Lassitude, and Dimness of Vision.

READ! READ!! READ!!!

DANVILLE, Pa., June, 1862.—*Dr. William H. Gregg*—*Dear Sir*:—In February, 1861, I was afflicted with sugar diabetes, and for five months I passed more than two gallons of water in twenty-four hours. I was obliged to get up as often as ten or twelve times during the night, and in five months I lost about fifty pounds in weight. During the month of July, 1861, I procured two bottles of Constitution Water, and in two days after using it I experienced relief, and after taking two bottles I was entirely cured soon after regaining my usual good health.

Yours truly, J. V. L. DEWITT.

BOSTON CORNERS, N. Y., Dec. 27, 1861.—*Wm. H Gregg & Co.—Gents*:—I freely give you liberty to make use of the following certificate of the value of the Constitution Water, which I can recommend in the highest manner:—My wife was attacked with pain in the shoulders, whole length of the back, and in her limbs, with *palpitation of the heart and irritation of the bladder*. I called a physician, who attended her about three months, when he left her worse than he found her. I then employed one of the best physicians I could find, who attended her for about nine months, and while she was under his care she did not suffer quite as much pain. He finally gave her up, and said, "*her case was incurable. For*," said he, "*she has such a combination of complaints that medicine given for one operates against some other of her difficulties.*" About this time she commenced to use the Constitution Water and to our utter astonishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure.

WM. M. VAN BEUSCHOTEN.

WEATHERSFIELD, Conn., March 2, 1863.—*Dr. W. H. Gregg.—Dear Sir*:—Having seen your advertisement of "Constitution Water," recommended for Inflammation of the Kidneys and Irritation of the Bladder, having suffered for the past three years, and tried the skill of a number of physicians with only temporary relief, I was induced to try your medicine. I procured one bottle of your agents at Hartford, Messrs. Lee, Sisson & Co., and when I had used half of it, to my surprise, I found a great change in my health. I have used two bottles of it and am where I never expected to be in my life, well, and in good spirits. I cannot express my gratitude for it; I feel that it is all and more than you recommended it to be. May the blessing of God ever attend you in your labors of love.

Yours truly, LEONARD S. BIGLOW.

STEAMSHIP COMPANY.

SEMI-WEEKLY LINE.

The splendid and fast Steamships DIRIGO, Capt. H. SHERWOOD, and FRANCONIA, Capt. W. W. SHERWOOD, will, until further notice, run as follows:

Leave Brown's Wharf, Portland, every WEDNESDAY and SATURDAY, at 4 P. M., and leave Pier 38 East River, New York, every WEDNESDAY and SATURDAY, at 4 o'clock P. M.

These vessels are fitted up with fine accommodations for passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine. Passage, in State Room, $6. Cabin passage $5. Meals extra.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John.

Shippers are requested to send their freight to the Steamer as early as 3 P. M., on the day that they leave Portland.

For freight or passage, apply to

EMERY & FOX,
Brown's Wharf, Portland.
J. F. JAMES,
Pier 38 East River.

Portland, May 29, 1866.

Special Notice

To Soldiers and Seamen!!

The Law Has Passed!

Bounties Equalized.

Justice Done the Early Soldiers and Seamen of the War, their Widows and Heirs.

NOTICE has been sent me from Washington, that the Law equalizing the bounty to Soldiers and Seaman was passed Saturday last, July 28th, by Congress.

I am now authorized and prepared to collect this Bounty for every Soldier and Seaman entitled, also, for their Widows and Heirs.

☞ Application made personally at my office, or by mail,—the discharge of the Soldier or Seaman should be handed in—as it must be forwarded with the application.

☞ All applications must be made signed, witnessed and sworn to, AFTER THE PASSAGE OF THIS LAW. Many soldiers have been induced to sign papers before the law passed. This practice is irregular, fraudulent and void, and papers in all such cases must be made over.

☞ Soldiers and Seamen

Call early and get full particulars at the Old War Claim Agency of

C. P. BROWN,

July 30 *BANGOR.*

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1837.

No. 78 State Street, (opposite Kilby street,) Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"

Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,"

Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."
